New York Canvas Wrap

All of our canvas wraps are supplied ready to hang and are available with either 1" deep or 2" deep stretchers.
 Please note that actual depth of 1" stretcher is 3/4"; 2" stretcher is 1 3/4".

Notes

On canvas wraps using 1" deep stretchers the front face is always 2" less than the print size to allow for the wrapping around the stretcher bars, eg a 20" x 16" has a front face of 18" x 14".

On canvas wraps using 2" deep stretchers the front face is always 4" less than the print size to allow for the wrapping around the stretcher bars, eg a 30" x 20" has a front face of 26" x 16".

Wrap Guide

When ordering these products it is important to provide enough image to cover the front face and the sides. Please refer to the guidelines below.

1" New York Canvas Wrap

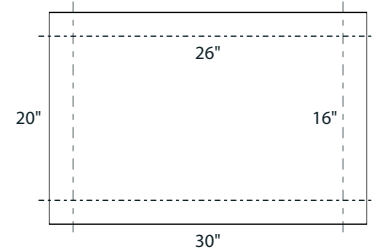

Difference between the viewed front face and the overall image size is 2", ie 1" of each side of the image is lost in the wrap process. Please allow for this when setting up your files for printing.

Overall print size: 20" x 24"
Viewed front face: 18" x 22"

2" New York Canvas Wrap

Difference between the viewed front face and the overall image size is 4", ie 2" of each side of the image is lost in the wrap process. Please allow for this when setting up your files for printing.

Overall print size: 20" x 30"
Viewed front face: 16" x 26"

Direct to Media Printing

All the following products are available in either standard or bespoke sizes.

Images may be printed to bleed or with borders. Prices include printing and four satin aluminium fixing studs.

- Embedded image 10mm acrylic sandwich
(only suitable for fixing against a white or off-white wall)
- Surface printed 3mm satin aluminium
(includes Nielsen O4 brushed satin silver frame which creates a pleasing contrast against the aluminium)
- Surface printed 8mm polar frost
(a whiter, more opaque finish than the frosted acrylic)
- Surface printed 10mm gloss white – *for keyhole option deduct £15*
(the gloss finish of the acrylic, contrasts with the matt finish of the inks)
- Surface printed 8mm double frosted transparent
(a 'soft' satin-like finish that requires a reasonably neutral or white wall to fix to)
- Embedded image 10mm clear/white combi
(reverse printed on 3mm frosted acrylic & backed with 5mm white acrylic for a deep glossy finish)
- Reverse printed 8mm single frosted transparent – *not illustrated*
(with a glossy front, this finish requires a reasonably neutral or white wall to fix to)
- Reverse printed 10mm transparent – *not illustrated*
(only suitable for fixing against a white or off-white wall)

The following prices apply to any of the above finishes:

| *40 x 30 | 37 1/2 x 27 1/2 | 112.50 |

*Only available with lustre (rock crystal) seal.

Split Image Blockmounts

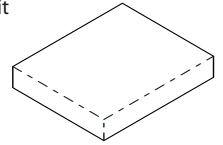

Print prices are not included.

Send us your image and a sketch of the split required and we will prepare the file (at no extra charge) to allow for the amount of wrap required on each side. These split image blockmounts are intended to be hung with a 1/2 inch gap between the sections. Costs are as wrap blockmounts.

A split image blockmount consisting of four 20 x 16" prints would be charged @ £150.00 (exclusive of prints) and would have a front face of approximately 35 x 27".

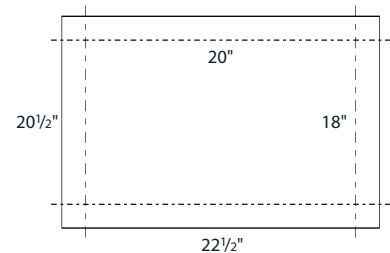

Wrap Guide

When ordering these products it is important to provide enough image to cover the front face and the sides. Please refer to the guidelines below.

Wrap Blockmount

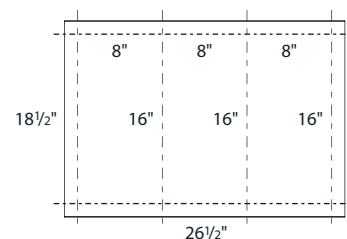

Difference between the viewed front face and the overall image size is 2 1/2", ie 1 1/4" of each side of the image is lost in the wrap process. Please allow for this when setting up your files for printing.

Overall print size: 20 1/2" x 22 1/2"
Viewed front face: 18" x 20"

Split Image Blockmount

Difference between the viewed front face and the overall image size is 2 1/2", ie 1 1/4" of each side of the image is lost in the wrap process. Please allow for this when setting up your files for printing. SCL will calculate and allow for the internal wraps of each section.

Overall print size: 18 1/2" x 26 1/2"
Viewed front face (each section): 16" x 8"

Digital Printing *

Type A Prints – Digitally produced colour or B&W prints direct from your prepared files and printed on either gloss or lustre paper. Images should be saved as jpegs or tiffs in RGB or grey scale, at a resolution of 254 dpi and set to the final output size. We also require you to save your files in individual folders according to physical size, eg '8x6 Gloss'. Do not mix gloss & lustre prints within the same folder, and please save B&W files in a separate folder.

Non standard sizes are not a problem provided a folder is created in that size. Prices will be charged at the nearest size as below.

Quantity discounts according to number of files in a single folder

metallicpaper

For prints with a distinctly contemporary edge and increased vibrancy, why not try our new metallic print service.

Processed through RA-4 chemistry, our metallic prints retain the durability you've come to expect from Kodak Endura paper. Available in all sizes up to 20" x 30" (gloss surface only) metallic prints enable you to expand your portfolio of services for both commercial and social commissions. The metallic finish is especially effective with black & white images, sepia and those with a high colour saturation. Metallic prints are priced at +50% over our usual print prices, with a minimum order value of £20.00 (ex VAT).
